

# The VSys family

### VSys One

### Tools for full-time administrators

- Powerful and flexible scheduling tools.
- Communication tools by e-mail, text messaging, social media.
- Hundreds of built-in reports plus report customization tools.
- Calendar and schedules with multiple view and use options.
- Eligibility checklists to track volunteers through your processes for onboarding when new or for added roles.
- Go paperless with customizable categories for documents and photos.
- Track relationships, availability, skills, needs, preferences, jobs, photos, comments and attachments for every volunteer.
- Custom fields, certifications and filters to store data your way.

## VSys Anywhere

#### Browser-based administration

- Intuitive interface.
- Same powerful reporting and communication tools.
- Easy deployment.

### <u>Hosting</u>

Cloud-based: We can host VSys for you in our secure facilities – US or Canada. Access VSys from anywhere in the world using your PC, Mac, tablet or smartphone.

#### -- or --

*In-house*: Give yourself 100% control by hosting VSys within your own facilities, and integrating it into your existing infrastructure.
